Independent Auditors' Report

Board of Directors
North Harris County Regional Water Authority

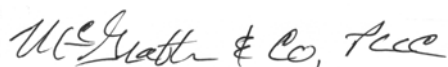

We have audited the accompanying statements of net assets of the business type activities of North Harris County Regional Water Authority (the "Authority"), as of December 31, 2010 and 2009, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended, as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority, as of December 31, 2010 and 2009, and the results of its operations and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis information listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the Authority's basic financial statements. The information beginning on page 40 appears as supplementary information. We have applied certain limited procedures which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However we did not audit the information and express no opinion on it.

***North Harris County Regional Water Authority
Management's Discussion and Analysis
December 31, 2010***

Using this Annual Report

Within this section of the financial report of the North Harris County Regional Water Authority (the "Authority"), the Authority's Management provides narrative discussion and analysis of the financial activities of the Authority, for the fiscal years ended December 31, 2010 and 2009. This analysis should be read in conjunction with the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The Authority's basic financial statements;
- Notes to the basic financial statements; and
- Additional supplementary information

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements, which are comprised of the following: 1) *Statement of Net Assets*, 2) *Statement of Revenues, Expenses and Changes in Net Assets*, and the 3) *Statement of Cash Flows*. This report also contains supplementary information in addition to the basic financial statements themselves.

The *Statement of Net Assets* presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of changes in the financial position of the Authority.

The *Statement of Revenues, Expenses and Changes in Net Assets* presents information showing how the Authority's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The *Statement of Cash Flows* presents information on the Authority's cash inflows and outflows during the fiscal year. Cash flows are categorized as operating activities; capital and related financing activities and investing activities. This statement includes a reconciliation of cash provided by the Authority's operating activities to operating income as reported on the *Statement of Revenues, Expenses and Changes in Net Assets*.

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

Financial Analysis of the Authority

On the *Statement of Net Assets*, the difference between assets and liabilities is called net assets. The Authority's net assets at December 31, 2010 and 2009, were \$52,670,814 and \$32,980,604, respectively. Net assets are categorized based on their availability to provide financial resources for the Authority. Net assets that are "Invested in capital assets, net of related debt" represent the Authority's investments in capital assets, less any debt used to acquire those assets that is still outstanding. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. "Restricted" net assets represent amounts that are restricted for future debt service requirements. "Unrestricted" net assets represent amounts available to meet the Authority's future obligations.

**North Harris County Regional Water Authority
Management's Discussion and Analysis
December 31, 2010**

Financial Analysis of the Authority (continued)

The Authority's overall financial position at December 31, 2010 as compared to the two prior years is summarized as follows:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Current and other assets	\$ 234,285,527	\$ 234,360,073	\$ 335,731,527
Capital assets	361,317,121	349,891,998	233,607,294
Total assets	<u>595,602,648</u>	<u>584,252,071</u>	<u>569,338,821</u>
Current liabilities	9,316,458	8,033,492	2,294,925
Long term liabilities	533,615,376	543,237,975	548,405,875
Total liabilities	<u>542,931,834</u>	<u>551,271,467</u>	<u>550,700,800</u>
Net Assets			
Invested in capital assets, net of related debt	(83,444,125)	(86,486,484)	(86,933,362)
Restricted for debt service	45,274,475	52,328,740	57,446,477
Unrestricted	<u>90,840,464</u>	<u>67,138,348</u>	<u>48,124,906</u>
Total net assets	<u>\$ 52,670,814</u>	<u>\$ 32,980,604</u>	<u>\$ 18,638,021</u>

The Authority's net operating income for the year ended December 31, 2010 was \$42,866,927 with net non-operating expenses of \$23,176,717 resulted in an increase in net assets of \$19,690,210. The Authority's net operating income for the year ended December 31, 2009 was \$34,304,912 with net non-operating expenses of \$19,962,329 resulted in an increase in net assets of \$14,342,583. Non-operating revenues and non-operating expenses represented interest income from the Authority's investments and interest expense from the Authority's debt. The increase in net assets in 2010 was primarily the result of an increase in water fees and the conversion to surface water during the year. The increase in net assets in 2009 was primarily the result of an increase in the pumpage fees, which was effective January 1, 2009, and unusually dry conditions during the year which increased the volume of water pumped. The rate increases are consistent with the Authority's financial planning and budgeting, and are used to satisfy bond covenants and debt service requirements.

A summarized comparison of the Authority's operations for the year ended December 31, 2010 with the previous two years is as follows:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Operating revenues	\$ 58,810,424	\$ 46,660,076	\$ 28,394,551
Operating expenses	<u>(15,943,497)</u>	<u>(12,355,164)</u>	<u>(9,506,658)</u>
Net operating income	42,866,927	34,304,912	18,887,893
Net non-operating revenue (expense)	<u>(23,176,717)</u>	<u>(19,962,329)</u>	<u>(13,444,362)</u>
Change in net assets	19,690,210	14,342,583	5,443,531
Net assets, beginning of year	<u>32,980,604</u>	<u>18,638,021</u>	<u>13,194,490</u>
Net assets, end of year	<u>\$ 52,670,814</u>	<u>\$ 32,980,604</u>	<u>\$ 18,638,021</u>

**North Harris County Regional Water Authority
Management's Discussion and Analysis
December 31, 2010**

Capital Assets

As of December 31, 2010, the Authority had invested \$361,317,121 (net of accumulated depreciation) in capital assets. These capital assets primarily consist of land, construction in progress, infrastructure and the Authority's interest in treated water facilities and water transmission facilities.

The Authority's capital assets at December 31, 2010, as compared to the two previous years are summarized as follows:

	2010	2009	2008
Capital assets not being depreciated:			
Land and ROW acquisition	\$ 19,172,187	\$ 18,897,704	\$ 16,744,457
Construction in progress	66,495,457	90,425,276	57,161,235
Non-depreciable capital assets	<u>85,667,644</u>	<u>109,322,980</u>	<u>73,905,692</u>
Capital assets being depreciated or amortized:			
Interest in treated water facilities	76,653,800	75,853,800	52,454,277
Interest in transmission facilities	26,064,086	26,064,086	26,064,086
Infrastructure	196,746,955	157,203,517	94,648,148
Furniture, computers & equipment	182,686	153,361	141,361
	<u>299,647,527</u>	<u>259,274,764</u>	<u>173,307,872</u>
Less accumulated depreciation and amortization for:			
Interest in treated water facilities	(11,057,167)	(9,072,304)	(7,122,998)
Interest in transmission facilities	(2,901,548)	(2,322,346)	(1,742,327)
Infrastructure	(9,889,321)	(7,170,493)	(4,604,290)
Furniture, computers & equipment	(150,014)	(140,603)	(136,655)
Total accumulated depreciation and amortization	<u>(23,998,050)</u>	<u>(18,705,746)</u>	<u>(13,606,270)</u>
Depreciable capital assets, net	<u>275,649,477</u>	<u>240,569,018</u>	<u>159,701,602</u>
Total capital assets, net	<u>\$ 361,317,121</u>	<u>\$ 349,891,998</u>	<u>\$ 233,607,294</u>

During the current year, the Authority completed capital projects in the amount of \$40,647,246, which primarily consist of the following:

- Land and ROW acquisitions
- 16" water lines along CenterPoint Energy (Project 7C-3, Part 2)
- 16" and 20" water transmission lines to serve Harris County MUD 24 and Harris County WCID 114 (Project 7C-5)
- 30" waterline along the Kinder Morgan pipeline easement between project 7B and NWHC MUD 36 (Project 7C-6)
- 30" water line along Cypresswood Drive and Mirror Lake Drive from CenterPoint easement to Senger Gully (Project 14A)
- 54" water line from Green Road to West Rankin Road (Project 17, Segment 1)
- 60", 20" 16" and 12" water line (Project 17, Segment 3)
- Cypress Forest Public Utility District connection (Project 7C4, Contract 3)

North Harris County Regional Water Authority
Management's Discussion and Analysis
December 31, 2010

Capital Assets (continued)

The projects that are not complete as of fiscal year end, along with related engineering fees, have been recorded as construction in progress in the *Statement of Net Assets*. Engineering fees related to various other projects that are in the preliminary phases have also been recorded as construction in progress in the *Statement of Net Assets*.

Construction in progress includes the following projects:

- Ground storage tanks, yard piping and storm water drainage (Project 2, Package 1)
- Construction of Spears Road pump station (Project 2, Package 2)
- Louetta Regional Water Plant pump station (Project 5D)
- Water distribution system service connections to water plants at Faulky Gully MUD, Grant Road PUD, Harris County MUD No. 18 and Northwest Harris County MUD No. 5 (Project 6B-3)
- District connections – Contract 1 (Project 7C-4)
- 42-inch water main - T.C. Jester and 20-inch waterline – Cypresswood (Project 10B)

Long-Term Obligations

The Authority's total long term obligations at December 31, 2010, as compared to the previous two years is as follows:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Capital contributions			
2003	31,846,738	\$ 32,573,177	\$ 32,573,177
2005	14,380,823	14,675,978	14,675,978
2008	35,896,880	35,896,880	30,010,202
	<u>82,124,441</u>	<u>83,146,035</u>	<u>77,259,357</u>
Revenue bonds			
Series 2003	121,925,000	124,685,000	124,685,000
Series 2005	92,030,000	93,875,000	93,875,000
Series 2008	238,115,000	238,115,000	238,115,000
Unamortized bond premium	7,177,929	7,473,926	7,769,921
Unamortized bond discount	(3,323,711)	(3,453,377)	(3,583,043)
	<u>455,924,218</u>	<u>460,695,549</u>	<u>460,861,878</u>
Accrued compensated absences	140,681	140,681	133,957
	<u>\$ 538,189,340</u>	<u>\$ 543,982,265</u>	<u>\$ 538,255,192</u>

The revenue bonds are secured by a pledge on the Authority's net revenues (total revenues less operating and maintenance costs). As further discussed in Note 5, the Authority's master resolution requires that the Authority maintain balances in the following funds: (1) interest and sinking fund, (2) reserve fund, (3) coverage fund, (4) operation and maintenance fund and (5) improvement fund. During 2010, the Authority has continued to comply with all of its bonds covenants and has maintained these funds at required levels. In addition, the Authority transferred \$18,000,000 to the improvement fund.

The Authorities bond ratings were upgraded from A3/A+ to A1/A+ during the current fiscal year.

North Harris County Regional Water Authority
Management's Discussion and Analysis
December 31, 2010

Next Year's Budget

The Authority's 2011 budget as compared to actual results for 2010 is as follows:

	<u>2010 Actual</u>	<u>2011 budget</u>
Operating revenues	\$ 58,810,424	\$ 44,904,719
Operating expenses	<u>(15,943,497)</u>	<u>(24,430,969)</u>
Net operating income	<u>42,866,927</u>	<u>20,473,750</u>
Interest revenues	1,005,718	500,000
Interest expense	<u>(24,182,435)</u>	<u>(28,052,656)</u>
Net non-operating expense	<u>(23,176,717)</u>	<u>(27,552,656)</u>
Change in net assets	19,690,210	(7,078,906)
Beginning net assets	<u>32,980,604</u>	<u>52,670,814</u>
Ending net assets	<u>\$ 52,670,814</u>	<u>\$ 45,591,908</u>

As previously discussed, 2010 actual revenues were higher than anticipated due to unusually dry conditions during the year. Accordingly, the Authority's budgeted revenues for 2011 are less than 2010 actual amounts. The increase in budgeted expenses for 2011 is primarily attributed to higher anticipated operations and maintenance costs.

Economic Factors

The Harris-Galveston Subsidence District (HGSD) groundwater reduction requirements mandate that construction will begin on the infrastructure required to meet the 2010 conversion target of thirty percent reduction in groundwater use, along with requirements for higher conversion target thresholds which will take effect through the year 2030. The Authority's approved Groundwater Reduction Plan (GRP) defines how it will comply with this requirement.

Several disincentives were built into the HGSD Regulatory Plan, including a \$3/1,000 gallons (groundwater pumped) "penalty" fee that would be triggered if: (1) the GRP was not submitted and certified according to the timeline; (2) construction had not begun on the surface water delivery infrastructure by 2005; and (3) the mandated groundwater pumpage reductions were not accomplished within the 2010, 2020 and 2030 timelines. This disincentive fee was later raised to \$5.00/1,000 gallons. The Authority has met all of the applicable deadlines to date.

As the GRP was being developed, it became apparent that some water districts within the Authority were experiencing difficulty with either the water quality or water quantity to meet accelerating demand. These districts would soon be forced to decide whether or not to drill a new well, sometimes at a cost of more than a million dollars, which may be minimally used once the area converted to surface water in 2010.

Economic Factors (continued)

From the outset, the Authority's cornerstone precept was fairness and equity among all users within its boundaries, and promised that the overall cost of accommodating the HGSD mandate would be shared by everyone. Drilling new wells that were not ideally positioned to be incorporated into the long-term distribution system or would be minimally used upon conversion to surface water was clearly not cost-effective. Recognizing this, the Authority initiated the Groundwater Transfer Program (the "GTP") to share existing groundwater supplies by 'connecting' the districts that had surplus capacity in their wells with the ones that needed additional water immediately. The GTP involved constructing portions of the 2010 distribution lines significantly earlier than originally planned. The necessary components of the GTP were completed and the GTP was placed in operation in January 2006. After very successfully meeting its intended purpose, the GTP ended in June, 2010 with the conversion to surface water by the involved districts.

In October 2003, the Authority adopted its first Capital Improvement Plan (the 2004-2005 "CIP"). The primary focus of the first CIP was the definition and construction of the infrastructure necessary to allow implementation of the GTP. Subsequent plans expanded on this foundation by outlining and implementing a broad-based program to provide the remainder of the infrastructure necessary to comply with the initial conversion to surface water in 2010.

The 2011-2012 CIP continues the systematic planning and development process begun when the Authority's Board adopted the first CIP in 2003. The primary focus of the 2011-2012 CIP is to refine the infrastructure needed to continue implementation of the GRP in 2020 and to initiate efforts to provide that infrastructure.

Significant activities addressed in the 2011-2012 CIP Plan are:

- Continue evaluation of the need for regional water wells; and, as need is defined, locate, purchase or design and construct these wells
- Continue and complete the development of the Supervisory Control and Data Acquisition ("SCADA") System to enable efficient operation of the 2010 system
- Provide infrastructure to areas adjacent to the 2010 service area to enable the phased implementation of the 2020 distribution system
- Finalize the alignment of the portion of the 2020 transmission line, which lies generally north of Beltway 8 from just east of Highway 59 to State Highway 249, and initiate securing the necessary easements
- Identify and purchase the site for each of the three 2020 regional water plants and two 2020 regional pump stations
- Provide funding to increase the Authority's allocation of water from the City of Houston to 36 MGD
- Provide funding to purchase an additional 6 MGD capacity in the Greens Road waterline
- Pay the Authority's portion of the right-of-way and related costs for the Luce Bayou Interbasin Diversion project
- Provide funding for the Chloramination Credit
- Reuse program participation
- Provide professional services to perform a wide variety of activities required to implement the CIP

**North Harris County Regional Water Authority
Management's Discussion and Analysis
December 31, 2010**

Economic Factors (continued)

The Plan has been developed using the best, currently available information about the scope of each project along with cost information from a variety of sources, including cost experience from the Authority's projects completed to date. While the Authority's body of empirical cost data is expanding, especially in terms of water lines, the cost base is still evolving in several areas. Accordingly, the following points are offered to help keep the implementation of the 2011-2012 CIP in perspective:

- It is possible that conditions would evolve on a project that could materially impact the cost of the project
- Real estate and construction costs can be and are influenced by variables over which the Authority has no control
- It is common to experience unexpected costs in the implementation of a CIP. Provision of a contingency is the most practical way to attempt to address this issue

While the 2004-2005 CIP used the best cost estimation available at the time, it did not have the benefit of building upon actual Authority project experience; instead, the costing was based on the general project definition presented in the GRP. As the actual design of the projects proceeded and the criteria within which the Authority needed to develop its projects became clearer, it has become possible to sharpen the definition of the projects. As a result, the ability to estimate the project costs has improved. The estimated costs included in the 2011-2012 CIP Plan have been updated and/or based, wherever possible or practical, on experience gained thus far on actual Authority projects.

The proceeds from the Authority's Series 2003, 2005 and 2008 Senior Lien Revenue Bonds, capital contributions and interest earned (collectively called "Revenue Bonds") total approximately \$429 million. As seen on the following table, approximately \$83 million of those Revenue Bonds will be used to implement the Plan. The remainder of approximately \$31 million of the near \$114 million needed to implement the 2011-2012 CIP will be funded through either Bond Anticipation Notes ("BANS") or a future bond sale.

Category	Authorizations		Fiscal Year		Project Total
			Planned Authorizations		
	1/1/03-9/30/10	10/1/10-12/31/10	2011	2012	
Acquisition	\$ 25,361,000	\$	\$ 20,125,000	\$ 3,728,000	\$ 49,214,000
Design	40,656,000	2,920,000	13,920,000	4,300,000	61,796,000
Construction	229,561,000		10,239,000	22,290,000	262,090,000
Other	50,791,000		26,997,000	9,200,000	86,988,000
Total Authorizations	\$ 346,369,000	\$ 2,920,000	\$ 71,281,000	\$ 39,518,000	\$ 460,088,000
Source of Funds					
Revenue Bonds	\$ 346,369,000	\$ 2,920,000	\$ 71,281,000	\$ 8,853,000	\$ 429,423,000
Future BANS/Bonds				30,665,000	30,665,000
Total Funds	\$ 346,369,000	\$ 2,920,000	\$ 71,281,000	\$ 39,518,000	\$ 460,088,000

Through September, 2010, approximately 78 percent of the Revenue Bonds earmarked for the implementation of the CIP have been authorized (encumbered). The Plan schedules the remainder of those funds to be authorized by the end of 2012.

Note 1- Summary of Significant Accounting Policies

The North Harris County Regional Water Authority (the “Authority”) was created in 1999 under Article 16, Section 59 of the Texas Constitution by House Bill 2965, as passed by the 75th Texas Legislature and as amended (the “Act”). The Authority began operations in October 1999. The Act empowers the Authority to provide for the conservation, preservation, protection, recharge and prevention of waste of groundwater and for the reduction of groundwater withdrawals.

The Authority may charge a fee, based on the amount of water pumped from the well, and/or the alternative water provided, to the owner of wells located in the Authority’s boundaries, unless exempted. The fees established by the Board of Directors must be sufficient to: (1) achieve water conservation, prevent waste of water, serve as a disincentive to pumping groundwater and make available alternative water supplies; and (2) enable the Authority to meet operation and maintenance expenses and pay the principal and interest on any debt issued by the Authority.

The accompanying financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America. The following is a summary of the most significant policies:

Reporting Entity

The Authority is a political subdivision of the State of Texas governed by an elected five member board. As required by generally accepted accounting principles, these financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations or functions as part of the Authority’s financial reporting entity. No other entities, organizations or functions have been included in the Authority’s financial reporting entity. Additionally, as the Authority is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the Authority’s financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the Authority is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the Authority’s financial reporting entity status is that of a primary government are: that it has a separate governing body; it is legally separate; and it is fiscally independent of other state and local governments. Additional prescribed criteria under generally accepted accounting principles include; considerations pertaining to organizations for which the primary government is financially accountable; and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

Basic Financial Statements

The basic financial statements include the *Statements of Net Assets*, the *Statements of Revenues, Expenses and Changes in Net Assets* and the *Statements of Cash Flows*. These statements focus on the sustainability of the Authority as an entity and the change in aggregate financial position resulting from these activities for the fiscal year.

Note 1- Summary of Significant Accounting Policies (continued)

Measurement Focus and Basis of Accounting

The Authority follows proprietary fund accounting and reporting requirements, which utilize the economic resources measurement focus and the accrual basis of accounting. The Authority follows generally accepted accounting principles prescribed by the Governmental Accounting Standards Board (GASB) and all Financial Accounting Standard Board's (FASB) standards issued prior to November 30, 1989. The Authority has elected not to apply FASB pronouncements issued after that date.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for water fees. Operating expenses include the cost of services, administrative expenses and depreciation and amortization on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Net assets are classified into the following three components:

- Invested in capital assets, net of related debt – this component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, capital contribution credits or other borrowings.
- Restricted – net assets are reported as restricted when constraints placed on net asset use are either externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or imposed through enabling legislation.
- Unrestricted – this component of net assets consists of net assets that do not meet the definition of the previous two categories.

Cash and Cash Equivalents

For the purpose of the *Statement of Cash Flows*, the Authority defines cash and cash equivalents as cash on hand, demand deposits, certificates of deposit and investments in local government investment pools (i.e., TexPool, TexPool Prime and TexSTAR).

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by an allowance for amounts considered uncollectible. At December 31, 2010 an allowance for possible uncollectible accounts was not considered necessary.

Restricted Assets

Proceeds of bonds or other resources set aside for specific purposes are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants or contractual agreements.

Note 1- Summary of Significant Accounting Policies (continued)

Capital Assets

The Authority defines capital assets as assets with an individual cost of \$5,000 or more and an estimated useful life in excess of one year. Capital assets, which include land, right of way acquisition costs, infrastructure and interest in infrastructure assets constructed by the City of Houston, are reported at historical cost. Donated assets are recorded at their estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of assets or materially extend asset lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Computer and software	3
Furniture and equipment	5-7
Infrastructure	20-45

Interest costs on assets acquired with tax-exempt borrowings are capitalized, net of interest earned on related interest-bearing investments acquired with proceeds of the related borrowings, from the date of borrowing until the assets are ready for their intended use. During the current fiscal year, the Authority incurred interest costs of \$23,480,350 on construction related tax exempt borrowings and capitalized \$3,405,327 of net interest.

Long Term Obligations

Long term debt and other long term obligations are reported as liabilities on the Authority's *Statement of Net Assets*. Bonds payable are reported net of any applicable discount or premium. Bond issuance costs are reported as a deferred charge (i.e., a non-current asset) and are amortized over the life of the bonds to which they relate using the straight line method, which approximates the effective interest method.

Compensated Employee Absences

Compensated employee absences, which include vacation, compensatory time and sick leave, are accumulated during employment and are accrued when earned. The rate at which an employee earns benefits will vary depending upon their employment status, years employed and position with the Authority. Full-time employees are eligible for vacation time after six months employment and earn between 10 and 25 days vacation per year. At December 31, up to 40 hours of vacation leave is automatically converted to compensatory time. Employees who work at least 32 hours per week earn sick leave at the rate of 3-5 hours per pay period, not to exceed 480 hours. Upon termination, employees are paid for accumulated vacation and compensatory time. The General Manager is also entitled to receive compensation for accrued sick leave.

Note 1- Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

Note 2 – Cash and Investments

Restricted Cash and Investments

Cash and investments were restricted for the following purposes at December 31, 2010 and 2009:

	<u>2010</u>	<u>2009</u>
Bond reserves	\$ 46,309,045	\$ 53,372,312
Capital improvements	94,595,991	112,345,421
	<u>\$ 140,905,036</u>	<u>\$ 165,717,733</u>

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash and certificates of deposit) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the Authority’s deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third party custodian. The act further specifies the types of securities that can be used as collateral. The Authority’s written investment policy establishes additional requirements for collateralization of deposits. As of December 31, 2010, all of the Authority’s deposits are insured or fully collateralized.

Investments

The Authority is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations of the United States or its agencies and instrumentalities, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) insured or collateralized certificates of deposit, (8) certain fully collateralized repurchase agreements, (9) bankers’ acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program. The Authority has adopted a written investment policy to establish the principles by which the Authority’s investment program should be managed. This policy further restricts the types of investments in which the Authority may invest.

North Harris County Regional Water Authority
Notes to Basic Financial Statements
December 31, 2010

Note 2 – Cash and Investments (continued)

As of December 31, 2010, the Authority’s investments and maturities are as follows:

Investment Type	Fair Value	Percentage of Total	Maturities in Years		
			Less Than 1	1-5	6-10
Federal National Mortgage Association	\$ 30,928,177	14.0%	\$ 29,365,370	\$ 1,562,607	\$ -
Federal Home Loan Mortgage Corporation	43,579,036	19.7%	27,120,649	16,458,387	
Federal Home Loan Bank	47,779,002	21.6%	36,342,152	11,436,850	
Federal Farm Credit Bank	2,828,153	1.3%	2,828,153	-	
U.S. Treasury bills	13,364,219	6.0%	11,852,729	1,511,490	
Certificates of deposit	2,990,820	1.4%	2,990,820		
TexPool	7,937,748	3.6%	7,937,748		
TexPool Prime	30,776,822	13.9%	30,776,822		
TexSTAR	41,342,709	18.7%	41,342,709		
	<u>\$ 221,526,686</u>	<u>100.0%</u>	<u>\$ 190,557,152</u>	<u>\$ 30,969,334</u>	<u>\$ -</u>

The Authority considers the investments in TexPool, TexPool Prime and TexSTAR to have a maturity of less than one year because the weighted average maturities of these pools are 64 days, 45 days and 67 days, respectively. All of the Authority’s investments are AAA rated, with the exception of certificates of deposit, which are not rated. As previously noted, the investment pools and certificates of deposit are reported as cash equivalents on the *Statement of Net Assets*.

As of December 31, 2009, the Authority’s investments were as follows:

Investment Type	Fair Value	Percentage of Total	Maturities in Years		
			Less Than 1	1-5	6-10
Federal National Mortgage Association	\$ 70,573,477	33.2%	\$ 70,573,477	\$ -	\$ -
Federal Home Loan Mortgage Corporation	52,129,491	24.5%	52,129,491		
Federal Home Loan Bank	22,121,343	10.4%	22,121,343		
Federal Farm Credit Bank	599,102	0.3%	599,102		
U.S. Treasury bills	299,057	0.1%	299,057		
Small Business Administration pools	176,058	0.1%	176,058		
Certificates of deposit	23,288,962	11.0%	23,288,962		
TexPool	3,183,712	1.5%	3,183,712		
TexPool Prime	10,723,829	5.0%	10,723,829		
TexSTAR	29,280,795	13.8%	29,280,795		
	<u>\$ 212,375,826</u>	<u>100.0%</u>	<u>\$ 212,375,826</u>	<u>\$ -</u>	<u>\$ -</u>

*North Harris County Regional Water Authority
Notes to Basic Financial Statements
December 31, 2010*

Note 2 – Cash and Investments (continued)

The Authority considers the investments in TexPool, TexPool Prime and TexSTAR to have a maturity of less than one year because the weighted average maturities of these pools are 59 days, 42 days and 59 days, respectively. All of the Authority’s investments are AAA rated, with the exception of certificates of deposit, which are not rated.

Investment income is comprised of the following:

	<u>2010</u>	<u>2009</u>
Interest payments	\$ 4,216,991	\$ 1,149,067
Net increase (decrease) in fair value of investments	(3,211,273)	867,454
Total	<u>\$ 1,005,718</u>	<u>\$ 2,016,521</u>

Investment Pools

The Authority participates in TexPool, the Texas Local Government Investment Pool. The State Comptroller of Public Accounts exercises oversight responsibility of TexPool, which includes (1) the ability to significantly influence operations, (2) designation of management and (3) accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure. Although TexPool is not registered with the SEC as an investment company, it operates in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940. As permitted by GAAP, TexPool uses amortized cost (which excludes unrealized gains and losses) rather than market value to compute share price. Accordingly, the fair value of the Authority’s position in TexPool is the same as the value of TexPool shares.

The Authority also participates in TexSTAR, which also operates as 2a-7 like investment pool. TexSTAR is managed by First Southwest Asset Management and JP Morgan Chase. As with TexPool, the Authority’s position in TexSTAR is the same as the value of the Authority’s share in TexSTAR.

Investment Risks

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. Custodial credit risk is the risk that the investor will not be able to recover the value of its investments that are in the possession of an outside party if the counterparty fails. The Authority’s investment policies do not address these risks beyond the rating and maturity restrictions established by state statutes.

North Harris County Regional Water Authority
Notes to Basic Financial Statements
December 31, 2010

Note 3 – Capital Assets

A summary of changes in capital assets during the year ended December 31, 2010, follows:

	Beginning Balance	Additions	Retirements	Ending Balance
Capital assets not being depreciated:				
Land and ROW acquisition	\$ 18,897,704	\$ 274,483	\$	\$ 19,172,187
Construction in progress	90,425,276	9,915,157	(33,844,976)	66,495,457
Non-depreciable capital assets	<u>109,322,980</u>	<u>10,189,640</u>	<u>(33,844,976)</u>	<u>85,667,644</u>
Capital assets being depreciated or amortized:				
Interest in treated and untreated water facilities	75,853,800	800,000		76,653,800
Interest in transmission facilities	26,064,086			26,064,086
Infrastructure	157,203,517	39,543,438		196,746,955
Furniture, computers & equipment	153,361	29,325		182,686
Subtotal	<u>259,274,764</u>	<u>40,372,763</u>		<u>299,647,527</u>
Less accumulated depreciation and amortization:				
Interest in treated and untreated water facilities	(9,072,304)	(1,984,863)		(11,057,167)
Interest in transmission facilities	(2,322,346)	(579,202)		(2,901,548)
Infrastructure	(7,170,493)	(2,718,828)		(9,889,321)
Furniture, computers & equipment	(140,603)	(9,411)		(150,014)
Subtotal	<u>(18,705,746)</u>	<u>(5,292,304)</u>		<u>(23,998,050)</u>
Depreciable capital assets, net	<u>240,569,018</u>	<u>35,080,459</u>		<u>275,649,477</u>
Total capital assets, net	<u>\$ 349,891,998</u>	<u>\$ 45,270,099</u>	<u>\$ (33,844,976)</u>	<u>\$ 361,317,121</u>

Depreciation and amortization expense for the current year was \$5,292,304.

The Authority had the following contractual commitments for construction projects at December 31, 2010:

Contract	Contractual Commitment	Construction in Progress	Remaining Commitment
(Project 2-1) Ground storage tanks, yard piping and storm water drainage	\$ 13,149,750	\$ 12,556,160	\$ 593,590
(Project 2-2) Spears Road pump station	16,451,548	16,350,458	101,090
(Project 5D) Louetta Regional Water Plant pump station	12,123,818	11,476,683	647,135
(Project 6B-3) Water distribution system service connections to Faulky Gully MUD, Grant Rd PUD, HC MUD 18 and NWHCMUD 5 water plants	3,469,634	3,323,952	145,682
(Project 7C4-1) District Connections	2,960,736	2,947,516	13,220
(Project 10B) 42 inch water main - T.C. Jester and 20-inch waterline - Cypresswood	4,588,436	4,063,860	524,576
	<u>\$ 52,743,922</u>	<u>\$ 50,718,629</u>	<u>\$ 2,025,293</u>

The Authority has recorded an additional \$14,970,791 for engineering fees and capitalized interest and \$806,037 for retainage payable in construction in progress.

North Harris County Regional Water Authority
Notes to Basic Financial Statements
December 31, 2010

Note 4 - Leases

In 2000, the Authority entered into a lease agreement for office space. The lease was first amended November 1, 2005 and will terminate on January 31, 2011. The Authority has executed a second amendment, which will be effective February 1, 2011 and will terminate on June 30, 2016. The Authority may terminate the lease anytime after thirty-six months, by giving six months written notice and by paying a lease termination penalty of \$15,000 if the lease is terminated during the lease term months of 41-52 or a penalty of \$10,000 if the lease is terminated during the lease term months of 53-65. The Authority has also entered into various leases for office equipment. The Authority paid \$130,294 under these leases during the current period. Future annual commitments for leases for the next five years are as follows:

<u>Year Ending</u>	<u>Amount</u>
2011	\$ 104,402
2012	104,501
2013	107,796
2014	102,220
2015	97,949
	<u>\$ 516,868</u>

Note 5 – Long -Term Obligations

The Authority’s long term obligations consist of revenue bonds, capital contributions (see Note 6) and compensated absences (see Note 1).

Compensated Absences

The Authority’s liability for compensated absences as of December 31, 2010 and December 31, 2009 was \$140,681.

Senior Lien Revenue Bonds

The Authority issues Senior Lien Revenue Bonds (Senior Bonds) primarily to finance the design, acquisition and construction of regional water production, transmission, pumping, storage and distribution systems. The principal and interest on the Authority’s bonds will be repaid from net revenues.

Bonds payable, as reported on the financial statements for years ending 2010 and 2009 consists of the following:

	<u>2010</u>	<u>2009</u>
Bonds payable	\$ 452,070,000	\$ 456,675,000
Unamortized premiums	7,177,929	7,473,926
Unamortized discounts	(3,323,711)	(3,453,377)
Total	<u>\$ 455,924,218</u>	<u>\$ 460,695,549</u>
Due within one year	<u>\$ 4,810,000</u>	<u>\$ 4,605,000</u>

North Harris County Regional Water Authority
Notes to Basic Financial Statements
December 31, 2010

Note 5 – Long -Term Obligations (continued)

The change in the Authority’s long term debt during the year is as follows:

Bonds payable, beginning of year	\$ 456,675,000
Bonds retired	<u>(4,605,000)</u>
Bonds payable, end of year	<u><u>\$ 452,070,000</u></u>

Bonds payable at December 31, 2010 are comprised of the following issues:

Series	Amounts Outstanding	Original Issue Amount	Interest Rates	Maturity Date, Serially, Beginning /Ending	Interest Payment Dates	Callable Date
2003	\$ 121,925,000	\$ 124,685,000	5.00% - 5.25%	December 15, 2010/2033	June 15 / December 15	December 15, 2013
2005	92,030,000	93,875,000	3.50% - 5.25%	December 15, 2010/2035	June 15 / December 15	December 15, 2014
2008	238,115,000	238,115,000	4.00% - 5.50%	December 15, 2013/2038	June 15 / December 15	December 15, 2018
	<u><u>\$ 452,070,000</u></u>					

The Senior Bonds are secured by a lien on and pledge of the net revenues of the Authority. As additional security, the bond resolutions required the establishment of an Interest and Sinking Fund, a Reserve Fund and a Coverage Fund. A description of each fund follows:

- Interest and Sinking Fund - Used to accumulate the funds required to make the scheduled payments of debt service on the Senior Bonds. Money in the Interest and Sinking Fund shall be used solely for the purpose of paying principal, interest and any bank charges and other costs associated with payments of debt service on the Senior Bonds. Investments restricted for this fund as of December 31, 2010 were \$2,579,007.
- The Reserve Fund –Used (to the extent that amounts on deposit in the Interest and Sinking Fund and the Coverage Fund are insufficient) to secure and provide for the payment of principal and interest on the Senior Bonds as they become payable. As of December 31, 2010, the Reserve Fund requirements were \$32,740,030. The Authority has investments restricted for this fund in the amount of \$32,740,030.
- The Coverage Fund – Used to accumulate funds equal to 25% of the maximum annual debt service requirements for outstanding debt in any fiscal year. As of December 31, 2010, investments restricted by bond covenants for this fund were \$8,185,009, with an additional \$293,038 in accumulated interest.
- Operation and Maintenance Reserve Fund – Funds from gross revenues of the Authority will be deposited on or before the last business day of the month into this account. Investments restricted for this fund were \$2,805,000 as of December 31, 2010.

The Authority was in compliance with the bond covenants as of December 31, 2010.

Note 5 – Long -Term Obligations (continued)

Reserve Fund

The purpose of the Reserve Fund is to provide for ready access to funds on short notice in the event that the Authority is ever unable to make debt service payments in a timely manner. Accordingly, the Reserve Fund must contain cash and investments in a required minimum amount (the “Reserve Fund Requirement”) which is equal to the maximum annual debt service payments on the related bonds. In the alternative, the Reserve Fund Requirement may be satisfied with either: (i) a surety bond or insurance policy, if the insurer strength rating of the issuer of the surety bond or insurance policy is rated “AAA” or the equivalent; or (ii) an unconditional irrevocable letter of credit issued by a bank rated “AA” or the equivalent.

During 2008, the rating for the insurer of Series 2003 bonds fell below “A”, while the rating for the Series 2005 insurer fell below “AAA”. As a result of these downgrades, the Reserve Fund Requirement at December 31, 2010 is \$32,740,030, which consists of \$9,079,000 for the Series 2003 Senior Bonds, \$6,587,618 for the Series 2005 Senior Bonds and \$17,073,412 for the 2008 Senior Lien Revenue Bonds. As of December 31, 2010, all of the Reserve Fund Requirements have been met.

The Master Resolution provides that, in the event the insurer strength rating of the provider of a surety bond satisfying the Reserve Fund Requirements falls below “AAA” (but not below “A”), the Authority must take one of the following steps:

- i. deposit into the Reserve Fund cash sufficient to cause money in the Reserve Fund to accumulate to the Reserve Fund Requirement, such amount to be paid over the ensuing five years in equal installments at least semi-annually, or
- ii. replace the surety bond with another surety bond, insurance policy or letter of credit issued by an adequately rated provider within six months of such downgrade.

The Master Resolution further provides that in the event the insurer strength rating of the provider of a surety bond satisfying the Reserve Fund Requirement falls below “A”, the Authority must take one of the following steps:

- i. deposit into the Reserve Fund cash sufficient to cause the money in the Reserve Fund to accumulate to the Reserve Fund Requirement, such amount to be paid over the ensuing year in equal installments on at least a monthly basis, or
- ii. replace such instrument with a surety bond, insurance policy or letter of credit issued by an adequately rated provider within six months of such occurrence.

The Authority completed an analysis of the alternatives listed above and determined to fund the Reserve Fund Requirements with legally available funds on hand. The Series 2003 Bond Reserve Fund Requirement has been fully funded as of December 31, 2010. Due to interest earned on the investments, the 2003 Reserve Fund has a surplus of \$76,145.

North Harris County Regional Water Authority
Notes to Basic Financial Statements
December 31, 2010

Note 5 – Long -Term Obligations (continued)

Reserve Fund (continued)

The Authority funded \$657,570 and \$1,315,000 of the Requirement for the Series 2005 Bonds in 2008 and 2009, respectively. During the current fiscal year, the Authority transferred \$4,604,000 from the operating fund to the 2005 Debt Service Reserve Account. As of December 31, 2010, the 2005 Reserve Fund Requirement has been met. Due to interest earned on the investments, this fund has a surplus of \$10,382.

The Reserve Fund Requirements for the 2008 Series were funded by the Series 2008 Bond proceeds as permitted by the Resolution and Texas Law. Due to interest earned on the investments, this fund has a surplus of \$277,837.

Debt Service Requirements

As of December 31, 2010, the debt service requirements on the Senior Bonds outstanding are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Totals</u>
2011	\$ 4,810,000	\$ 23,277,775	\$ 28,087,775

North Harris County Regional Water Authority
Notes to Basic Financial Statements
December 31, 2010

Note 5 – Long -Term Obligations (continued)

Debt Service Requirements (continued)

Principal and interest payments on the Senior Bonds will be provided through the payment of water fees by utility districts and non-exempt well owners.

Note 6 – Capital Contributions

In 2003, the Authority entered into contracts with twenty-four Municipal Utility Districts (MUDs) to provide funds to pay capital expenses of the Authority’s system. Each MUD has paid a Capital Contribution based on a percentage of its pro-rata share of the total groundwater production for all water utilities during the calendar year 2002. Capital contributions of \$32,573,177 were made to the Authority in the 2003 fiscal year. The participating MUDs began receiving contribution credits against their individual water fees distributed over the life of the Series 2003 Senior Bonds beginning with the 2003 third quarter pumpage fees. Any amounts remaining plus accrued interest at the end of the capital contribution expiration date will be credited against any amounts owed to the Authority by the MUDs or paid to the MUDs by the Authority.

Future contribution credits including interest, principal and remaining balance, at the effective interest rate of the Senior Bonds for the 2003 capital contributions as of December 31, 2010 are as follows:

<u>Year</u>	<u>Interest</u>	<u>Principal</u>	<u>Total</u>	<u>Remaining Balance</u>
2011	\$ 1,610,648	\$ 763,194	\$ 2,373,842	\$ 31,083,529

North Harris County Regional Water Authority
Notes to Basic Financial Statements
December 31, 2010

Note 6 – Capital Contributions (continued)

In 2005, the Authority entered into agreements with nineteen MUDs. Capital contributions of \$14,675,978 were made to the Authority in the 2005 fiscal year. The participating MUDs began receiving contribution credits against their individual water fees distributed over the life of the Series 2005 Senior Bonds beginning with the 2005 third quarter pumpage fees. As with the 2003 contribution credits, any amounts remaining plus accrued interest at the end of the capital contribution date will be credited against any amounts owed to the Authority by the MUDs or paid to the MUDs by the Authority.

Future contribution credits including interest, principal and remaining balance, at the effective interest rate of the Senior Bonds for the 2005 capital contributions as of December 31, 2010 are as follows:

<u>Year</u>	<u>Interest</u>	<u>Principal</u>	<u>Total</u>	<u>Remaining Balance</u>

Note 6 – Capital Contributions (continued)

In 2008, the Authority entered into contracts with twenty MUDs to provide funds to pay capital expenses of the Authority’s system. Each MUD has paid a Capital Contribution based on a percentage of its pro-rata share of the total groundwater production for all water utilities during the calendar year 2009. Capital contributions of \$30,010,202 and \$4,027,281 were made to the Authority in the 2008 and 2009 fiscal years, respectively, for total 2008 contributions of \$35,896,880. The participating MUDs began receiving contribution credits against their individual water fees distributed over the life of the Series 2008 Senior Bonds beginning with the 2009 first quarter pumpage fees. Any amounts remaining plus accrued interest at the end of the capital contribution expiration date will be credited against any amounts owed to the Authority by the MUDs or paid to the MUDs by the Authority.

Future contribution credits including interest, principal and remaining balance, at the effective interest rate of the Senior Bonds for the 2008 capital contributions as of December 31, 2010 are as follows:

<u>Year</u>	<u>Interest</u>	<u>Principal</u>	<u>Total</u>	<u>Remaining Balance</u>

Note 7 – Unrestricted Net Assets

Included in the Authority's unrestricted net assets of \$90,840,464, is \$78,047,484 which the Authority has designated as additional bond reserves and has been deposited in the Improvement Fund.

Note 8 – Risk Management

The Authority is exposed to various risks related to torts: theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The Authority's risk management program encompasses various means of protecting the Authority against loss by obtaining property, casualty and liability coverage through commercial insurance carriers. There have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Note 9 – Deferred Compensation Plans

The Authority offers its employees a deferred compensation plan created in accordance with Internal Revenue Code, Section 457. The plan is available and permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The plan is administered by the International City Management Association - Retirement Corporation (ICMA-RC).

Note 10 – Pension Plan

The Authority has established the North Harris County Regional Water Authority Qualified Pension Plan 401(a) (the "Plan"). The Plan covers all employees. Under the terms of the Plan, active participants become 100% vested on the fifth anniversary of employment. Participants are eligible for payment of benefits upon reaching age 70½, becoming disabled or separating from service for any other reason. Benefits are distributed in accordance with the instructions of the participants. The Board of Directors appointed ICMA-RC to serve as Plan administrator and trustee. The Plan provides for a minimum Authority contribution of 7% of total current covered payroll. At December 31, 2010, all of the Authority's employees were members of the Plan. Non-vested contributions are immaterial to total contributions at December 31, 2008. Vested contributions are solely the possession of participating employees. Total current payroll was \$1,019,009 for the year ended December 31, 2010, of which \$995,759 was covered under the Plan. Employer contributions to the Plan for the year ended December 31, 2010 were \$147,095.

In 2003, the Authority established an additional 401(a) plan for management employees only. It is identical to the above Plan with the following exceptions: 1) management employees are fully vested on the second anniversary of employment and 2) the Plan provides for a minimum Authority contribution of 25% for the current year annual covered payroll of the General Manager. The total payroll and employer contributions for this plan are included in the totals above.

Note 11 – Water Supply Contracts

In December 2002, the Authority entered into a forty year contract with the City of Houston (Houston) for the purchase of capacity in certain untreated water facilities and treated water facilities, including transmission facilities, of Houston. Under the terms of the contract, Houston will provide surface water to the Authority at a point of delivery to be located near Highway 59 and Beltway 8.

The contract stipulates that the Authority will purchase capacity, in phases, in Houston's surface water system. Houston will be responsible for the design, construction, ownership, maintenance and operation of both treated and untreated water facilities prior to a mutually agreeable delivery point(s). The Authority will be responsible for the design, construction, ownership, maintenance and operation of all facilities located beyond the point of delivery.

Note 11 – Water Supply Contracts (continued)

During 2003, the Authority made its first payment of \$51,492,844 to Houston for the purchase of capacity in Houston's treated water facilities and transmission facilities constructed prior to the effective date of the contract. In 2009, the Authority made additional payments for the total amount of \$21,799,523 for the Existing Untreated Water Facilities Initial Untreated Water Demand Allocation of 31 million gallons per day ("MGD").

The Authority will pay Houston, on a monthly basis, its pro-rata share of operating and maintenance costs of the treated and untreated water facilities and transmission lines based on an annual operating budget once it begins receiving water. Such monthly payments will include an amount adequate to establish an operating reserve. The contract also provides the Authority with the option to purchase additional capacity in the future. The Authority paid Houston \$4,727,759 for purchased surface water during the current year.

In March 2003, the Authority entered into an Interim Treated Water Supply Contract with Houston. Subject to the terms of this contract, the Authority entered into an agreement with Emerald Forest Utility District (the "District") for water supply. During the current year, the Authority paid Houston \$70,506 on behalf of the District for purchased water.

In January 2009, the Authority and Houston executed the First Supplement (the "Supplement") to the Water Supply Contract to increase the supply of untreated surface water available to the Authority, Houston and the other entities through the construction of the Luce Bayou Interbasin Transfer Project ("Luce Bayou"). When completed, Luce Bayou will convey approximately 400 MGD of untreated surface water from the Trinity River to Lake Houston. The Supplement addresses the allocation of capacity in Luce Bayou and how the costs of the project will be shared by the Authority, the other entities and Houston. The Supplement and Water Supply Contract remain in effect until 2080.

The Coastal Water Authority (CWA) has been designated as the project manager and, working with Houston, is responsible for all decisions and actions relating to the design, development, procurement and construction of all aspects of Luce Bayou. Houston will issue (or cause CWA to issue) bonds, notes or other obligations to pay for all of the costs of the project, except for the right-of-way costs and CWA interest amount (\$360,836 as calculated in the Supplement). In addition to the other terms of the Supplement, neither party shall have any obligation to pay any funds for the project unless and until the City or CWA have obtained \$28,000,000 in funding from the Texas Water Development Board's Water Infrastructure Fund that provides for: (i) the accrual of zero interest on such funds for up to 10 years or until the project is completed, whichever occurs first; and (ii) no interest or principal payments on such funds during the 10 year period.

Houston agrees to cause the construction of the project so that it is substantially complete by June 30, 2019. The project will be completed in two stages as follows: (1) Phase I will be the permitting, engineering, surveying, right-of-way and site acquisition, which is currently estimated at a cost of \$43,000,000 and (2) Phase II of the project will be the construction and related costs, which is currently estimated at a cost of \$214,000,000.

Note 11 – Water Supply Contracts (continued)

Under the terms of the contract, the Authority will make the following payments to Houston:

- Lump Sum Payments for Project Right of Way Costs and Payment of CWA Interest Costs;
- Payments for Existing Untreated Water Supply Facilities; and
- Payments for Phases 1 and 2 Annual New Untreated Water Facilities.

Lump Sum Payments. Payment of the Authority’s pro-rata share of the CWA interest costs is \$57,734 which was paid January 27, 2009. Currently, Houston estimates that the right-of-way costs will be \$15,000,000. The Authority has paid Houston a lump sum payment for these costs in two payments as follows: (1) \$1,600,000 which was paid June 15, 2009 and (2) \$800,000, which was paid June 15, 2010.

Houston and the Authority agreed to “true-up” the payments made by the Authority for the right-of-way costs such that if the Authority has underpaid, taking into account interest accrued, it will pay Houston for the shortfall within 60 days of receiving the final accounting and Houston agrees to refund the Authority any overpayment within 60 days of receiving the final accounting.

Payments for Existing Untreated Water Facilities. The Authority seeks to increase its Untreated Water Facilities Demand from 31 MGD to 159 MGD, which is currently estimated to be the Authority’s surface water demand in the year 2040. Under the terms of the Supplement, the Authority is required to make four payments to Houston for Existing Untreated Water Facilities. Each payment is based on a formula defined in the Supplement based on the Authority’s water demand needs in 2025, 2030, 2035 and 2040.

The first payment is due within 60 days of receiving notification from Houston of the completion of Luce Bayou; the second payment is due the earlier of 60 days after sending notice to Houston of the Authority’s water demand needs for 2030 or June 30, 2025; the third payment is due the earlier of 60 days after sending notice to Houston of the Authority’s water demand needs for 2035 or June 30, 2030; and the fourth payment is due the earlier of 60 days after sending notice to Houston of the Authority’s water demand needs for 2040 or June 30, 2035.

Payment for Phases 1 and 2 Annual New Untreated Water Facilities. Payments made to Houston for Phase 1 and 2 Annual New Untreated Water Facilities are to be used only for the purpose of making debt service payments on obligations issued by either Houston or CWA for the construction of Phase 1 and Phase 2 of Luce Bayou. The formulas used to calculate payments are defined in the contract and take into consideration the Authority’s 159 MGD untreated water reservation, the total amount of untreated water sold by Houston to all customers and Houston’s annual debt service requirement.

Note 12 – Agreement for Joint Financing of Facilities

In 2004, the Authority entered into an Agreement for Joint Financing, Design, Construction, Operation and Maintenance of Surface Water Transmission Facilities (Joint Financing Agreement) with Harris County Municipal Utility District No. 33 (No. 33) for the Central Harris County Water Users Consortium, now Central Harris County Regional Water Authority (the “Central Authority”), a consortium of conservation and reclamation Districts established and operating pursuant to the Central Harris County Water Users Consortium Agreement, dated December 13, 2002. The terms of the Joint Financing Agreement, required that the Authority construct a sixty-inch water transmission line to commence at the point of delivery, as defined in the Authority’s Water Supply Contract with Houston (see Note 11) to enable the Authority and the Central Authority to receive surface water from the Northeast Water Purification Plant.

The Central Authority requires a means to receive surface water from Houston for delivery to the Member Districts and desires to participate in the financing, design, construction, operation and maintenance of the proposed water transmission line. The Authority will hold title to the joint use facilities and the Central Authority will pay a pro-rata share of the costs of right-of-way acquisition, design and construction costs for the joint use facilities. The Central Authority will escrow funds with the Authority for each phase of the construction and design. When each phase is complete, a summary of costs will be compiled and any excess or deficiency will be settled at that time. The Central Authority will also be responsible for its pro-rata share of operation and maintenance costs of the facilities and will be required to establish an operation and maintenance cost reserve with the Authority, based on operation and maintenance budgets to be prepared annually. The estimated cost of the transmission line was \$63,681,140, with the Authority’s share being 90.38% and the Central Authority share being 9.62% of such costs.

In October 2007, the Authority entered into an Interlocal Agreement with Central Authority. Under the terms of the Interlocal Agreement, the Authority will acquire properties, rights-of-way, easements and other property interests for the construction, installation and operation and maintenance of the facilities for the transportation, distribution and delivery of water to and within the Authority’s boundaries. The Central Authority will be responsible for its pro-rata share of the total costs incurred in acquiring the easements and related costs.

The Authority will pay for all front-end expenses associated with acquisition of the easements. Once acquisition has been completed and the costs have been finalized, the Authority will provide a detailed invoice to the Central Authority.

In February 2008, the Authority entered into a Letter of Understanding (the “LOU”) with the Central Authority. It was agreed that it was in the best interest of both parties to construct a portion of the proposed Central Authority facilities in conjunction with the Authority’s facilities. Both parties agreed to enter into the LOU, which will serve as an amendment to the Joint Financing Agreement. The Central Authority will be responsible for the design of the Central Authority facilities and will be responsible for all costs associated with incorporating the plans and specifications into the Authority bid packages and its pro-rate share of the bid advertisement cost. The Central Authority will be responsible for the construction cost and the cost of construction administration, project observation, materials testing, reasonable Authority staff costs and any other related costs for the Central Authority Facilities. All costs other than the construction costs will collectively be called construction support costs, which are estimated to be 13% of the construction costs.

Note 12 – Agreement for Joint Financing of Facilities (continued)

Prior to the award of the construction contract by the Authority's Board of Directors, the Central Authority will escrow an amount equal to the construction costs. Within 120 days of the award of the construction contract, the Central Authority will escrow an amount equal to the Central Authority's pro-rata share of the construction support costs. In the prior year, the Central Authority escrowed \$605,168 with the Authority. In the current fiscal year, the Authority received an additional \$78,762 from the Central Authority for additional construction support costs. However, no amounts held by the Authority on behalf of the Central Authority have been used. All funds escrowed with the Authority by the Central Authority were deposited in an interest bearing account and all interest earned on these funds shall belong to the Central Authority.

Upon completion and acceptance of the construction contract, the Authority will conduct a true-up of Central Authority costs for the project and if the amount escrowed exceeds the Central Authority costs for the project, the Authority will refund the excess amount paid by the Central Authority, including any interest earnings. If the amount escrowed is less than the Central Authority costs, the Central Authority will reimburse the Authority for the shortage.

The project was completed in the prior fiscal year and costs have been incurred by the Authority related to this agreement. The Authority will hold all amounts paid by the Central Authority until a reconciliation is performed on the final contract amount. At December 31, 2010, the Authority held \$617,232 in escrow on behalf of the Central Authority and has recorded a liability in the amount of \$683,840 for this project.

Upon acceptance of the Central Authority facilities and completion of the true-up process, the Central Authority will assume ownership of the facilities.

Note 13 – Cost Sharing Agreement with Prestonwood Forest Utility District

In June 2008, the Authority entered into an Interlocal Cost Sharing Agreement with Prestonwood Forest Utility District (Prestonwood) for the construction and installation of a water line, along with related appurtenances, to serve Prestonwood. The Authority was responsible for the acquisition of necessary easements, design, construction, ownership, maintenance and operation of the project. The term of the agreement is for ten years, unless terminated by mutual agreement of the parties.

As of December 31, 2010, the project is complete and the Authority has recorded a liability for the reimbursement to Prestonwood of \$224,177. Subsequent to year end, a final determination of the costs was made, and the Authority refunded \$203,670 to Prestonwood in accordance with the terms of the Agreement.

Note 14 – Buy / Sell Agreements

In fiscal years 2005 and 2006, the Authority entered into Buy/Sell agreements for implementation of the Groundwater Transfer Program (GTP) with eighteen utility Districts for the purpose of encouraging the maximum utilization of existing water production facilities to provide water to Districts that are currently in need of water from Districts with a surplus of water. The first priority of the GTP is to supply water to Districts with water quality issues such as arsenic, secondly to Districts needing additional water for growth and finally to Districts needing additional water for peaking purposes. The primary purpose of the GTP is to limit construction of new water wells and related water production facilities that will have limited use after the conversion to surface water.

Note 14 – Buy / Sell Agreements (continued)

During a delivery period, a seller shall sell, and the District may purchase a volume of water equal to an amount determined by the Authority to be required from a seller to meet demand and create a minimum flow within the Authority's system. The Authority shall sell, and a buyer shall purchase, a volume of water equal to at least the minimum water demand allocation, if any, and not to exceed the maximum water demand allocation by up to ten percent. A buyer shall pay the Authority for water it receives from the Authority for the purchase price of \$1.70 per 1,000 gallons less applicable depreciation credit times the volume of water delivered by the Authority to the buyer. The depreciation credit will be limited to a maximum of \$0.80 per 1,000 gallons of water purchased. The Authority will pay the seller the sale price of \$0.91 per 1,000 gallons plus an amount equal to the pumpage fee times the volume of water delivered to the Authority by a seller. The GTP ended in June, 2010 with the conversion to surface water by the participating districts.
